
6.0 AGENCY COORDINATION AND PUBLIC OUTREACH

6.0 AGENCY COORDINATION AND PUBLIC OUTREACH

The Authority and/or its consultants have coordinated closely with all relevant regional, state and county agencies throughout the course of the Proposed Project. This coordination has been performed to ensure that all relevant concerns of the agencies and general public are considered in the development of the project's design and in the assessment of environmental impacts. In many cases, the Authority has met with several agencies on numerous occasions.

In addition, the Authority has met with representatives of the governing bodies of the 11 Project Corridor municipalities to describe and explain the Proposed Project. The Authority has also met with several private groups and corporations for the same purpose.

Following is a list of all meetings held to date with regional, state, and county agencies as well as local governing bodies and others with whom coordination has occurred during the course of the Proposed Project.
